PRODUCT FLYER BRIEF

Protiva, Everyday protein

Copy and specifications for four product flyers. Every claim below is printed on pack or comes from the brand data file, so the RetailIQ pitch generator can read a flyer without picking up anything the data cannot back.

Brand essentials

Item	Detail
Promise	Everyday protein in formats a working person already buys: a bar, a bottle and a bowl, with the protein number on the front and a price that fits a normal grocery basket.
Shopper	Urban Bengaluru, 24 to 38, salaried. Skips or shortens one meal on weekdays, tracks protein loosely, does not use supplements.
Tagline	Everyday protein

Colour palette

Deep teal	Dark green	Lime	Warm orange
#0C6B5F	#0A3A33	#C6F04A	#B5582A

Orange is reserved for shopper-facing pieces. Typeface: Inter, with Segoe UI as the fallback.

Rules for every flyer

Allowed claims: protein grams, added sugar grams, pack size, price, shelf life, flavour.

Never claim: health outcomes such as builds muscle or weight loss, best, or No. 1. None of these are sourced.

Price-per-gram line: shakes flyer only, always with the KB-108 note.

For the pitch upload: keep numbers as live text, not baked into a stylised graphic, so the model reads them reliably. No logos other than Protiva, and never show a real competitor's pack.
